TECHNICAL SPECIFICATIONS

Complete product information for professional job-site use.

SPECIFICATION	DETAIL
Product type	Temporary multi-layer floor protection
Construction	3-layer construction
Material weight	160 GSM
Roll dimensions	36" × 100'
Coverage	300 sq. ft. per roll
Approximate roll weight	12 lb
Top layer	Protective PE film
Middle layer	Non-woven felt
Bottom layer	Self-adhesive anti-slip layer
Surface protection	Helps protect against paint, common spills, moisture, dust and job-site traffic
Water resistance	Water-resistant / waterproof protective top surface
Installation	Roll out, position and press into place
Tape requirement	No tape required for normal installation
Grip	Self-adhesive backing helps keep material positioned on compatible surfaces
Removal	Designed for temporary use and removal from compatible finished surfaces
Applications	Painting, renovation, remodeling, construction and property maintenance
Professional users	Painters, renovators, contractors, flooring installers and property managers
Typical surfaces	Compatible finished hardwood, tile, laminate, vinyl and similar flooring; test first
Handling	Lightweight roll format for transport and job-site handling
Delivery	Job-site delivery available

Surface note: Always test the material on a small, inconspicuous area before full installation, particularly on delicate, newly finished or specialty surfaces.

BUILT FOR REAL JOB SITES

Fast installation, dependable temporary protection and practical handling.

SELF-ADHESIVE	NO TAPE NEEDED	PROTECTIVE TOP FILM	ANTI-SLIP BOTTOM	CONTRACTOR READY
Helps stay securely positioned.	Designed to reduce installation time.	Helps guard against paint, spills and moisture.	Helps provide grip on compatible finished surfaces.	For painting, renovation, construction and maintenance.

PROTECT THE FLOOR. GET TO WORK.

Sorrento Guard is designed for professionals who need efficient temporary floor protection without slowing down the project.
